

Results of April 2025 ATC Block Energy RFP and Fixed Price Load Following Full Requirements RFPs Under UGI's DSP V

On April 30, 2025, the Pennsylvania Public Utility Commission approved the results of the April 2025 Around the Clock (“ATC”) Block Energy and Fixed Price Load Following Full Requirements RFPs under UGI’s fifth Default Service Program (“DSP V”). The [Secretarial Letter](#) is available on the PUC website.

The products procured under the ATC Block Energy and Fixed Price Load Following Full Requirements RFPs are to supply UGI’s GSR-1 Group consisting of residential and smaller commercial and industrial customers with peak loads of less than 100kW. A 60-month ATC Block product for 10 MW beginning June 1, 2025 was also solicited in the RFP, but no bids were received.

Table 1: ATC Block Energy RFP Results

Product	Supply Period	Supply Size	Winning Bid Price (\$/MWh)
24-Month ATC Block	June 2025 – May 2027	10 MW	44.05

Table 2: Fixed Price Load Following Full Requirements RFP Results

Product	Supply Period	Supply Size*	Winning Bid Price (\$/MWh)
6-Month Fixed Price Load Following Full Requirements	June 2025 – November 2025	25%	75.45
12-Month Fixed Price Load Following Full Requirements	June 2025 – May 2026	50%	79.83

**Note: the load following obligation is based upon the total GSR-1 default service customer load share after the application of the ATC Block energy-only supply contracts and an allocation of capacity and associated energy from the New York Power Authority.*
